Dear REBECCA S CLATTY:

As we notified you previously, the above referenced annuity contract is scheduled to mature on July 16, 2026. At maturity, payments begin, and any enhanced death benefit provided by your contract will be lost.

Under the terms of your contract, once the Maturity Date is reached, annuity payments will begin under the default method in your contract.

F. Election of Federal/State Tax Withholding

☐ I am aware that the Federal/State Income Tax Withholding Election form (OL4753) is required to process this request and has been completed and returned with this form.

Taxable distributions from this contract are subject to federal income tax withholding unless there is a valid election out of withholding. The amount of withholding is based on the portion of the distribution which represents gain in the contract and is subject to federal income tax. To elect out of withholding, the policy owner must complete the information requested below. Your election will remain in effect until revoked. Certain policy owners will not be permitted to elect out of withholding; these policy owners are those identified by the Internal Revenue Service. The amount of federal income tax due on this distribution is unaffected by whether or not the tax is withheld; thus, if you elect no withholding, or if you do not have enough tax withheld from your distribution, you may be responsible for payment of estimated taxes. If your withholding and estimated tax payments are insufficient, you may be penalized under the estimated tax rules. You may revoke your election at any time. Other state withholding rules may apply to certain distributions.

G. Investment Options – to be completed only if a Variable settlement option was elected in Section B.

Unless new allocations are specified below, the allocation percentages for the payout phase will mirror the final cash value percentage allocations as of the termination of the accumulation phase.

NOTE: The Guaranteed Interest Account and Market Value Adjustment investment options are not available after annuitization.

2025 Marginal Rate Tables

You may use these tables to help you select the appropriate withholding rate for this payment or distribution. Add your income from all sources and use the column that matches your filing status to find the corresponding rate of withholding.

Single or Married filing separately		Married filing jointly or Qualifying Widow(er)		Head of Household	
Total income over	Tax rate for every dollar more	Total income over	Tax rate for every dollar more	Total income over	Tax rate for every dollar more
$0	**0%**	$0	**0%**	$0	**0%**
$15,000	**10%**	$30,000	**10%**	$22,500	**10%**

$641,350*	**37%**	$781,600	**37%**	$648,850	**37%**

*If married filing separately, use $390,800 instead for this 37% rate.

Your withholding rate is determined by the type of payment you will receive.

- For non-periodic payments, the default withholding rate is 10%. You can choose to have a different rate by entering a rate between 0% and 100% in Section B. Federal Income Tax. Generally, you can't choose less than 10% for payments to be delivered outside the United States and its possessions.
- For an eligible rollover distribution, the default withholding rate is 20%. You can choose a rate greater than 20% by entering the rate in Section B. Federal Income Tax. You may not choose a rate less than 20%.

Suggestion for determining withholding. Consider using the Marginal Rate Tables to help you select the appropriate withholding rate for this payment or distribution. The tables are most accurate if the appropriate amount of tax on all other sources of income, deductions, and credits has been paid through other withholding or estimated tax payments. If the appropriate amount of tax on those sources of income has not been paid through other withholding or estimated tax payments, you can pay that tax through withholding on this payment by entering a rate that is greater than the rate in the Marginal Rate Tables.

The marginal tax rate is the rate of tax on each additional dollar of income you receive above a particular amount of income. You can use the table for your filing status as a guide to find a rate of withholding for amounts above the total income level in the table.

To determine the appropriate rate of withholding from the table, do the following.

Step 1: Find the rate that corresponds with your total income not including the payment.

Step 2: Add your total income and the taxable amount of the payment and find the corresponding rate.

If these two rates are the same, enter that rate in Section B. Federal Income Tax (See *Example 1* below.)

If the two rates differ, multiply (a) the amount in the lower rate bracket by the rate for that bracket, and (b) the amount in the higher rate bracket by the rate for that bracket. Add these two numbers; this is the expected tax for this payment. To get the rate to have withheld, divide this amount by the taxable amount of the payment. Round up to the next whole number and enter that rate in Section B. Federal Income Tax (See *Example 2* below.)

If you prefer a simpler approach (but one that may lead to overwithholding), find the rate that corresponds to your total income including the payment and enter that rate in Section B. Federal Income Tax.

Examples. Assume the following facts for Examples 1 and 2. Your filing status is single. You expect the taxable amount of your payment to be $20,000. Appropriate amounts have been withheld for all other sources of income and any deductions or credits.

Example 1. You expect your total income to be $65,000 without the payment. Step 1: Because your total income without the payment, $65,000, is greater than $63,475 but less than $118,350, the corresponding rate is 22%. Step 2: Because your total income with the payment, $85,000, is greater than $63,475 but less than $118,350, the corresponding rate is 22%. Because these two rates are the same, enter "22" in Section B. Federal Income Tax.

Example 2. You expect your total income to be $61,000 without the payment. Step 1: Because your total income without the payment, $61,000, is greater than $26,925 but less than $63,475, the corresponding rate is 12%. Step 2: Because your total income with the payment, $81,000, is greater than $63,475 but less than $118,350, the corresponding rate is 22%. The two rates differ. $2,475 of the $20,000 payment is in the lower bracket ($63,475 less your total income of $61,000 without the payment), and $17,525 is in the higher bracket ($20,000 less the $2,475 that is in the lower bracket). Multiply $2,475 by 12% to get $297. Multiply $17,525 by 22% to get $3,856. The sum of these two amounts is $4,153. This is the estimated tax on your payment. This amount corresponds to 21% of the $20,000 payment ($4,153 divided by $20,000). Enter "21" in Section B. Federal Income Tax.

Complete Steps 2–4 ONLY if they apply to you; otherwise, skip to Step 5. See pages 2 and 3 for more information on each step, when to use the estimator at *www.irs.gov/W4App*, and how to elect to have no federal income tax withheld (if permitted).

(iii) Add the amounts from items (i) and (ii) and enter the **total** here . . . . $

TIP: To be accurate, submit a new Form W-4P for all other pensions/annuities if you haven't updated your withholding since 2021 or this is a new pension/annuity that pays less than the other(s). Submit a new Form W-4 for your job(s) if you have not updated your withholding since 2019.

Complete Steps 3–4(b) on this form only if (b)(i) is blank **and** this pension/annuity pays the most annually. Otherwise, do not complete Steps 3–4(b) on this form.

Step 3: Claim Dependent and Other Credits

Add other credits, such as foreign tax credit and education tax credits $

Add the amounts for qualifying children, other dependents, and other credits and enter the total here . . . . **3** $

Step 4 (optional): Other Adjustments

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about any future developments related to Form W-4P, such as legislation enacted after it was published, go to *www.irs.gov/FormW4P*.

Purpose of form. Complete Form W-4P to have payers withhold the correct amount of federal income tax from your periodic pension, annuity (including commercial annuities), profit-sharing and stock bonus plan, or IRA payments. Federal income tax withholding applies to the taxable part of these payments. Periodic payments are made in installments at regular intervals (for example, annually, quarterly, or monthly) over a period of more than 1 year. Don't use Form W-4P for a nonperiodic payment (note that distributions from an IRA that are payable on demand are treated as nonperiodic payments) or an eligible rollover distribution (including a lump-sum pension payment). Instead, use Form W-4R, Withholding Certificate for Nonperiodic Payments and Eligible Rollover Distributions, for these payments/distributions. For more information on withholding, see Pub. 505, Tax Withholding and Estimated Tax.

Choosing not to have income tax withheld. You can choose not to have federal income tax withheld from your payments by writing "No Withholding" on Form W-4P in the space below Step 4(c). Then, complete Steps 1(a), 1(b), and 5. Generally, if you are a U.S. citizen or a resident alien, you are not permitted to elect not to have federal income tax withheld on payments to be delivered outside the United States and its territories.

Caution: If you have too little tax withheld, you will generally owe tax when you file your tax return and may owe a penalty unless you make timely payments of estimated tax. If too much tax is withheld, you will generally be due a refund when you file your tax return. If your tax situation changes, or you chose not to have federal income tax withheld and you now want withholding, you should submit a new Form W-4P.

When to use the estimator. Consider using the estimator at *www.irs.gov/W4App* if you:

1. Are submitting this form after the beginning of the year;

2. Have social security, dividend, capital gain, or business income, or are subject to the Additional Medicare Tax or Net Investment Income Tax;

3. Receive these payments or pension and annuity payments for only part of the year; or

4. Have changes during the year in your marital status, number of pensions/jobs for you (and/or your spouse if married filing jointly), number of dependents, or changes in your deductions or credits.

TIP: Have your most recent payment statements/pay stubs from this year available when using the estimator to account for federal income tax that has already been withheld this year. At the beginning of next year, use the estimator again to recheck your withholding.

Self-employment. Generally, you will owe both income and self-employment taxes on any self-employment income you (or you and your spouse) receive. If you do not have a job and want to pay these taxes through withholding from your payments, use the estimator at *www.irs.gov/W4App* to figure the amount to have withheld.

Payments to nonresident aliens and foreign estates. Do not use Form W-4P. See Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities, and Pub. 519, U.S. Tax Guide for Aliens, for more information.

Tax relief for victims of terrorist attacks. If your disability payments for injuries incurred as a direct result of a terrorist attack are not taxable, write "No Withholding" in the space below Step 4(c). See Pub. 3920, Tax Relief for Victims of Terrorist Attacks, for more details.

Specific Instructions

Submit a **separate Form W-4P** for each pension, annuity, or other periodic payments you receive.

Step 1(c). Check your anticipated filing status. This will determine the standard deduction and tax rates used to compute your withholding.

Step 2. Use this step if you have at least one of the following: income from a job, income from more than one pension/annuity, and/or a spouse (if married filing jointly) that receives income from a job/pension/annuity. The following examples will assist you in completing Step 2(b).

Example 1. Taylor, a single filer, is completing Form W-4P for a pension that pays $50,000 a year. Taylor also has a job that pays $25,000 a year. Taylor has no other pensions or annuities. Taylor will enter $25,000 in Step 2(b)(i) and in Step 2(b)(iii).

If Taylor also has $1,000 of interest income, which they entered on Form W-4, Step 4(a), then they will instead enter $26,000 in Step 2(b)(i) and in Step 2(b)(iii). They will make no entries in Step 4(a) on this Form W-4P.

Example 2. Casey, a single filer, is completing Form W-4P for a pension that pays $50,000 a year. Casey does not have a job, but receives another pension for $25,000 a year (which pays less annually than the $50,000 pension). Casey will enter $25,000 in Step 2(b)(ii) and in Step 2(b)(iii).

If Casey also has $1,000 of interest income, then they will enter $1,000 in Step 4(a) of this Form W-4P.

Example 3. Sam, a single filer, is completing Form W-4P for a pension that pays $50,000 a year. Sam does not have a job, but receives another pension for $75,000 a year (which pays more annually than the $50,000 pension). Sam will not enter any amounts in Step 2.

If Sam also has $1,000 of interest income, they won't enter that amount on this Form W-4P because they entered the $1,000 on the Form W-4P for the higher paying $75,000 pension.

Example 4. Alex, a single filer, is completing Form W-4P for a pension that pays $50,000 a year. Alex also has a job that pays $25,000 a year and another pension that pays $20,000 a year. Alex will enter $25,000 in Step 2(b)(i), $20,000 in Step 2(b)(ii), and $45,000 in Step 2(b)(iii).

If Alex also has $1,000 of interest income, which they entered on Form W-4, Step 4(a), they will instead enter $26,000 in Step 2(b)(i), leave Step 2(b)(ii) unchanged, and enter $46,000 in Step 2(b)(iii). They will make no entries in Step 4(a) of this Form W-4P.

If you are married filing jointly, the entries described above do not change if your spouse is the one who has the job or the other pension/annuity instead of you.

CAUTION ***Multiple sources of pensions/annuities or jobs.*** *If you (or if married filing jointly, you and/or your spouse) have a job(s), do NOT complete Steps 3 through 4(b) on Form W-4P. Instead, complete Steps 3 through 4(b) on the Form W-4 for the job. If you (or if married filing jointly, you and your spouse) do not have a job, complete Steps 3 through 4(b) on Form W-4P for* ***only*** *the pension/annuity that pays the most annually. Leave those steps blank for the other pensions/annuities.*

Step 3. This step provides instructions for determining the amount of the child tax credit and the credit for other dependents that you may be able to claim when you file your tax return. To qualify for the child tax credit, the child must be under age 17 as of December 31, must be your dependent who generally lives with you for more than half the year, and must have the required social security number. You may be able to claim a credit for other dependents for whom a child tax credit can't be claimed, such as an older child or a qualifying relative. For additional eligibility requirements for these credits, see Pub. 501, Dependents, Standard Deduction, and Filing Information. You can also include **other tax credits** for which you are eligible

Specific Instructions *(continued)*

in this step, such as the foreign tax credit and the education tax credits. Including these credits will increase your payments and reduce the amount of any refund you may receive when you file your tax return.

Step 4 (optional).

Step 4(a). Enter in this step the total of your other estimated income for the year, if any. You shouldn't include amounts from any job(s) or pension/annuity payments. If you complete Step 4(a), you likely won't have to make estimated tax payments for that income. If you prefer to pay estimated tax rather than having tax on other income withheld from your pension, see Form 1040-ES, Estimated Tax for Individuals.

Step 4(b). Enter in this step the amount from the Deductions Worksheet, line 6, if you expect to claim deductions other than the basic standard deduction on your 2025 tax return and want to reduce your withholding to account for these deductions. This includes itemized deductions, the additional standard deduction for those 65 and over, and other deductions such as for student loan interest and IRAs.

Step 4(c). Enter in this step any additional tax you want withheld from **each payment**. Entering an amount here will reduce your payments and will either increase your refund or reduce any amount of tax that you owe.

Note: If you don't give Form W-4P to your payer, you don't provide an SSN, or the IRS notifies the payer that you gave an incorrect SSN, then the payer will withhold tax from your payments as if your filing status is single with no adjustments in Steps 2 through 4. For payments that began before 2025, your current withholding election (or your default rate) remains in effect unless you submit a new Form W-4P.

Step 4(b)—Deductions Worksheet *(Keep for your records.)*

1	Enter an estimate of your 2025 itemized deductions (from Schedule A (Form 1040)). Such deductions may include qualifying home mortgage interest, charitable contributions, state and local taxes (up to $10,000), and medical expenses in excess of 7.5% of your income	1	$
2	Enter: • $30,000 if you're married filing jointly or a qualifying surviving spouse • $22,500 if you're head of household • $15,000 if you're single or married filing separately	2	$
3	If line 1 is greater than line 2, subtract line 2 from line 1 and enter the result here. If line 2 is greater than line 1, enter "-0-"	3	$
4	If line 3 equals zero, and you (or your spouse) are 65 or older, enter: • $2,000 if you're single or head of household. • $1,600 if you're married filing separately. • $1,600 if you're a qualifying surviving spouse or you're married filing jointly and one of you is under age 65. • $3,200 if you're married filing jointly and both of you are age 65 or older. Otherwise, enter "-0-". See Pub. 505 for more information	4	$
5	Enter an estimate of your student loan interest, deductible IRA contributions, and certain other adjustments (from Part II of Schedule 1 (Form 1040)). See Pub. 505 for more information	5	$
6	**Add** lines 3 through 5. Enter the result here and in **Step 4(b)** on Form W-4P	6	$

F. Election of Federal/State Tax Withholding

☐ I am aware that the Federal/State Income Tax Withholding Election form (OL4753) is required to process this request and has been completed and returned with this form.

Taxable distributions from this contract are subject to federal income tax withholding unless there is a valid election out of withholding. The amount of withholding is based on the portion of the distribution which represents gain in the contract and is subject to federal income tax. To elect out of withholding, the policy owner must complete the information requested below. Your election will remain in effect until revoked. Certain policy owners will not be permitted to elect out of withholding; these policy owners are those identified by the Internal Revenue Service. The amount of federal income tax due on this distribution is unaffected by whether or not the tax is withheld; thus, if you elect no withholding, or if you do not have enough tax withheld from your distribution, you may be responsible for payment of estimated taxes. If your withholding and estimated tax payments are insufficient, you may be penalized under the estimated tax rules. You may revoke your election at any time. Other state withholding rules may apply to certain distributions.

G. Investment Options – to be completed only if a Variable settlement option was elected in Section B.

Unless new allocations are specified below, the allocation percentages for the payout phase will mirror the final cash value percentage allocations as of the termination of the accumulation phase.

NOTE: The Guaranteed Interest Account and Market Value Adjustment investment options are not available after annuitization.

H. Tax Identification and Signatures – (Owner's Signature Required)

In consideration of the payment by the Company of the surrender/maturity value of the coverage indicated below the undersigned hereby release(s) and discharge(s) said Company from all claims, demands and liability thereunder and consent(s) to its termination. It is expressly represented and warranted that no other person or firm or corporation has any interest in said policy except the undersigned and that no proceeds in insolvency or bankruptcy have been instituted or are pending against the undersigned. The surrender value shall be computed as of the date the policy requirements for surrender have been satisfied; the maturity value shall be computed as of the maturity date.

Under penalties of perjury, I certify that:

2025 Marginal Rate Tables

You may use these tables to help you select the appropriate withholding rate for this payment or distribution. Add your income from all sources and use the column that matches your filing status to find the corresponding rate of withholding.

Single or Married filing separately		Married filing jointly or Qualifying Widow(er)		Head of Household	
Total income over	Tax rate for every dollar more	Total income over	Tax rate for every dollar more	Total income over	Tax rate for every dollar more
$0	**0%**	$0	**0%**	$0	**0%**
$15,000	**10%**	$30,000	**10%**	$22,500	**10%**

$641,350*	**37%**	$781,600	**37%**	$648,850	**37%**

*If married filing separately, use $390,800 instead for this 37% rate.

Your withholding rate is determined by the type of payment you will receive.

- For non-periodic payments, the default withholding rate is 10%. You can choose to have a different rate by entering a rate between 0% and 100% in Section B. Federal Income Tax. Generally, you can't choose less than 10% for payments to be delivered outside the United States and its possessions.
- For an eligible rollover distribution, the default withholding rate is 20%. You can choose a rate greater than 20% by entering the rate in Section B. Federal Income Tax. You may not choose a rate less than 20%.

Suggestion for determining withholding. Consider using the Marginal Rate Tables to help you select the appropriate withholding rate for this payment or distribution. The tables are most accurate if the appropriate amount of tax on all other sources of income, deductions, and credits has been paid through other withholding or estimated tax payments. If the appropriate amount of tax on those sources of income has not been paid through other withholding or estimated tax payments, you can pay that tax through withholding on this payment by entering a rate that is greater than the rate in the Marginal Rate Tables.

The marginal tax rate is the rate of tax on each additional dollar of income you receive above a particular amount of income. You can use the table for your filing status as a guide to find a rate of withholding for amounts above the total income level in the table.

To determine the appropriate rate of withholding from the table, do the following.

Step 1: Find the rate that corresponds with your total income not including the payment.

Step 2: Add your total income and the taxable amount of the payment and find the corresponding rate.

If these two rates are the same, enter that rate in Section B. Federal Income Tax (See *Example 1* below.)

If the two rates differ, multiply (a) the amount in the lower rate bracket by the rate for that bracket, and (b) the amount in the higher rate bracket by the rate for that bracket. Add these two numbers; this is the expected tax for this payment. To get the rate to have withheld, divide this amount by the taxable amount of the payment. Round up to the next whole number and enter that rate in Section B. Federal Income Tax (See *Example 2* below.)

If you prefer a simpler approach (but one that may lead to overwithholding), find the rate that corresponds to your total income including the payment and enter that rate in Section B. Federal Income Tax.

Examples. Assume the following facts for Examples 1 and 2. Your filing status is single. You expect the taxable amount of your payment to be $20,000. Appropriate amounts have been withheld for all other sources of income and any deductions or credits.

Example 1. You expect your total income to be $65,000 without the payment. Step 1: Because your total income without the payment, $65,000, is greater than $63,475 but less than $118,350, the corresponding rate is 22%. Step 2: Because your total income with the payment, $85,000, is greater than $63,475 but less than $118,350, the corresponding rate is 22%. Because these two rates are the same, enter "22" in Section B. Federal Income Tax.

Example 2. You expect your total income to be $61,000 without the payment. Step 1: Because your total income without the payment, $61,000, is greater than $26,925 but less than $63,475, the corresponding rate is 12%. Step 2: Because your total income with the payment, $81,000, is greater than $63,475 but less than $118,350, the corresponding rate is 22%. The two rates differ. $2,475 of the $20,000 payment is in the lower bracket ($63,475 less your total income of $61,000 without the payment), and $17,525 is in the higher bracket ($20,000 less the $2,475 that is in the lower bracket). Multiply $2,475 by 12% to get $297. Multiply $17,525 by 22% to get $3,856. The sum of these two amounts is $4,153. This is the estimated tax on your payment. This amount corresponds to 21% of the $20,000 payment ($4,153 divided by $20,000). Enter "21" in Section B. Federal Income Tax.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about any future developments related to Form W-4P, such as legislation enacted after it was published, go to *www.irs.gov/FormW4P*.

Purpose of form. Complete Form W-4P to have payers withhold the correct amount of federal income tax from your periodic pension, annuity (including commercial annuities), profit-sharing and stock bonus plan, or IRA payments. Federal income tax withholding applies to the taxable part of these payments. Periodic payments are made in installments at regular intervals (for example, annually, quarterly, or monthly) over a period of more than 1 year. Don't use Form W-4P for a nonperiodic payment (note that distributions from an IRA that are payable on demand are treated as nonperiodic payments) or an eligible rollover distribution (including a lump-sum pension payment). Instead, use Form W-4R, Withholding Certificate for Nonperiodic Payments and Eligible Rollover Distributions, for these payments/distributions. For more information on withholding, see Pub. 505, Tax Withholding and Estimated Tax.

Choosing not to have income tax withheld. You can choose not to have federal income tax withheld from your payments by writing "No Withholding" on Form W-4P in the space below Step 4(c). Then, complete Steps 1(a), 1(b), and 5. Generally, if you are a U.S. citizen or a resident alien, you are not permitted to elect not to have federal income tax withheld on payments to be delivered outside the United States and its territories.

Caution: If you have too little tax withheld, you will generally owe tax when you file your tax return and may owe a penalty unless you make timely payments of estimated tax. If too much tax is withheld, you will generally be due a refund when you file your tax return. If your tax situation changes, or you chose not to have federal income tax withheld and you now want withholding, you should submit a new Form W-4P.

When to use the estimator. Consider using the estimator at *www.irs.gov/W4App* if you:

1. Are submitting this form after the beginning of the year;

2. Have social security, dividend, capital gain, or business income, or are subject to the Additional Medicare Tax or Net Investment Income Tax;

3. Receive these payments or pension and annuity payments for only part of the year; or

4. Have changes during the year in your marital status, number of pensions/jobs for you (and/or your spouse if married filing jointly), number of dependents, or changes in your deductions or credits.

TIP: Have your most recent payment statements/pay stubs from this year available when using the estimator to account for federal income tax that has already been withheld this year. At the beginning of next year, use the estimator again to recheck your withholding.

Self-employment. Generally, you will owe both income and self-employment taxes on any self-employment income you (or you and your spouse) receive. If you do not have a job and want to pay these taxes through withholding from your payments, use the estimator at *www.irs.gov/W4App* to figure the amount to have withheld.

Payments to nonresident aliens and foreign estates. Do not use Form W-4P. See Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities, and Pub. 519, U.S. Tax Guide for Aliens, for more information.

Tax relief for victims of terrorist attacks. If your disability payments for injuries incurred as a direct result of a terrorist attack are not taxable, write "No Withholding" in the space below Step 4(c). See Pub. 3920, Tax Relief for Victims of Terrorist Attacks, for more details.

Specific Instructions

Submit a **separate Form W-4P** for each pension, annuity, or other periodic payments you receive.

Step 1(c). Check your anticipated filing status. This will determine the standard deduction and tax rates used to compute your withholding.

Step 2. Use this step if you have at least one of the following: income from a job, income from more than one pension/annuity, and/or a spouse (if married filing jointly) that receives income from a job/pension/annuity. The following examples will assist you in completing Step 2(b).

Example 1. Taylor, a single filer, is completing Form W-4P for a pension that pays $50,000 a year. Taylor also has a job that pays $25,000 a year. Taylor has no other pensions or annuities. Taylor will enter $25,000 in Step 2(b)(i) and in Step 2(b)(iii).

If Taylor also has $1,000 of interest income, which they entered on Form W-4, Step 4(a), then they will instead enter $26,000 in Step 2(b)(i) and in Step 2(b)(iii). They will make no entries in Step 4(a) on this Form W-4P.

Example 2. Casey, a single filer, is completing Form W-4P for a pension that pays $50,000 a year. Casey does not have a job, but receives another pension for $25,000 a year (which pays less annually than the $50,000 pension). Casey will enter $25,000 in Step 2(b)(ii) and in Step 2(b)(iii).

If Casey also has $1,000 of interest income, then they will enter $1,000 in Step 4(a) of this Form W-4P.

Example 3. Sam, a single filer, is completing Form W-4P for a pension that pays $50,000 a year. Sam does not have a job, but receives another pension for $75,000 a year (which pays more annually than the $50,000 pension). Sam will not enter any amounts in Step 2.

If Sam also has $1,000 of interest income, they won't enter that amount on this Form W-4P because they entered the $1,000 on the Form W-4P for the higher paying $75,000 pension.

Example 4. Alex, a single filer, is completing Form W-4P for a pension that pays $50,000 a year. Alex also has a job that pays $25,000 a year and another pension that pays $20,000 a year. Alex will enter $25,000 in Step 2(b)(i), $20,000 in Step 2(b)(ii), and $45,000 in Step 2(b)(iii).

If Alex also has $1,000 of interest income, which they entered on Form W-4, Step 4(a), they will instead enter $26,000 in Step 2(b)(i), leave Step 2(b)(ii) unchanged, and enter $46,000 in Step 2(b)(iii). They will make no entries in Step 4(a) of this Form W-4P.

If you are married filing jointly, the entries described above do not change if your spouse is the one who has the job or the other pension/annuity instead of you.

CAUTION ***Multiple sources of pensions/annuities or jobs.*** *If you (or if married filing jointly, you and/or your spouse) have a job(s), do NOT complete Steps 3 through 4(b) on Form W-4P. Instead, complete Steps 3 through 4(b) on the Form W-4 for the job. If you (or if married filing jointly, you and your spouse) do not have a job, complete Steps 3 through 4(b) on Form W-4P for* ***only*** *the pension/annuity that pays the most annually. Leave those steps blank for the other pensions/annuities.*

Step 3. This step provides instructions for determining the amount of the child tax credit and the credit for other dependents that you may be able to claim when you file your tax return. To qualify for the child tax credit, the child must be under age 17 as of December 31, must be your dependent who generally lives with you for more than half the year, and must have the required social security number. You may be able to claim a credit for other dependents for whom a child tax credit can't be claimed, such as an older child or a qualifying relative. For additional eligibility requirements for these credits, see Pub. 501, Dependents, Standard Deduction, and Filing Information. You can also include **other tax credits** for which you are eligible

Specific Instructions *(continued)*

in this step, such as the foreign tax credit and the education tax credits. Including these credits will increase your payments and reduce the amount of any refund you may receive when you file your tax return.

Step 4 (optional).

Step 4(a). Enter in this step the total of your other estimated income for the year, if any. You shouldn't include amounts from any job(s) or pension/annuity payments. If you complete Step 4(a), you likely won't have to make estimated tax payments for that income. If you prefer to pay estimated tax rather than having tax on other income withheld from your pension, see Form 1040-ES, Estimated Tax for Individuals.

Step 4(b). Enter in this step the amount from the Deductions Worksheet, line 6, if you expect to claim deductions other than the basic standard deduction on your 2025 tax return and want to reduce your withholding to account for these deductions. This includes itemized deductions, the additional standard deduction for those 65 and over, and other deductions such as for student loan interest and IRAs.

Step 4(c). Enter in this step any additional tax you want withheld from **each payment**. Entering an amount here will reduce your payments and will either increase your refund or reduce any amount of tax that you owe.

Note: If you don't give Form W-4P to your payer, you don't provide an SSN, or the IRS notifies the payer that you gave an incorrect SSN, then the payer will withhold tax from your payments as if your filing status is single with no adjustments in Steps 2 through 4. For payments that began before 2025, your current withholding election (or your default rate) remains in effect unless you submit a new Form W-4P.

Step 4(b)—Deductions Worksheet *(Keep for your records.)*

1	Enter an estimate of your 2025 itemized deductions (from Schedule A (Form 1040)). Such deductions may include qualifying home mortgage interest, charitable contributions, state and local taxes (up to $10,000), and medical expenses in excess of 7.5% of your income	**1**	$
2	Enter: • $30,000 if you're married filing jointly or a qualifying surviving spouse • $22,500 if you're head of household • $15,000 if you're single or married filing separately	**2**	$
3	If line 1 is greater than line 2, subtract line 2 from line 1 and enter the result here. If line 2 is greater than line 1, enter "-0-"	**3**	$

F. Election of Federal/State Tax Withholding

☐ I am aware that the Federal/State Income Tax Withholding Election form (OL4753) is required to process this request and has been completed and returned with this form.

Taxable distributions from this contract are subject to federal income tax withholding unless there is a valid election out of withholding. The amount of withholding is based on the portion of the distribution which represents gain in the contract and is subject to federal income tax. To elect out of withholding, the policy owner must complete the information requested below. Your election will remain in effect until revoked. Certain policy owners will not be permitted to elect out of withholding; these policy owners are those identified by the Internal Revenue Service. The amount of federal income tax due on this distribution is unaffected by whether or not the tax is withheld; thus, if you elect no withholding, or if you do not have enough tax withheld from your distribution, you may be responsible for payment of estimated taxes. If your withholding and estimated tax payments are insufficient, you may be penalized under the estimated tax rules. You may revoke your election at any time. Other state withholding rules may apply to certain distributions.

G. Investment Options – to be completed only if a Variable settlement option was elected in Section B.

Unless new allocations are specified below, the allocation percentages for the payout phase will mirror the final cash value percentage allocations as of the termination of the accumulation phase.

NOTE: The Guaranteed Interest Account and Market Value Adjustment investment options are not available after annuitization.

2025 Marginal Rate Tables

You may use these tables to help you select the appropriate withholding rate for this payment or distribution. Add your income from all sources and use the column that matches your filing status to find the corresponding rate of withholding.

$641,350*	**37%**	$781,600	**37%**	$648,850	**37%**

*If married filing separately, use $390,800 instead for this 37% rate.

Your withholding rate is determined by the type of payment you will receive.

- For non-periodic payments, the default withholding rate is 10%. You can choose to have a different rate by entering a rate between 0% and 100% in Section B. Federal Income Tax. Generally, you can't choose less than 10% for payments to be delivered outside the United States and its possessions.
- For an eligible rollover distribution, the default withholding rate is 20%. You can choose a rate greater than 20% by entering the rate in Section B. Federal Income Tax. You may not choose a rate less than 20%.

Suggestion for determining withholding. Consider using the Marginal Rate Tables to help you select the appropriate withholding rate for this payment or distribution. The tables are most accurate if the appropriate amount of tax on all other sources of income, deductions, and credits has been paid through other withholding or estimated tax payments. If the appropriate amount of tax on those sources of income has not been paid through other withholding or estimated tax payments, you can pay that tax through withholding on this payment by entering a rate that is greater than the rate in the Marginal Rate Tables.

The marginal tax rate is the rate of tax on each additional dollar of income you receive above a particular amount of income. You can use the table for your filing status as a guide to find a rate of withholding for amounts above the total income level in the table.

To determine the appropriate rate of withholding from the table, do the following.

Step 1: Find the rate that corresponds with your total income not including the payment.

Step 2: Add your total income and the taxable amount of the payment and find the corresponding rate.

If these two rates are the same, enter that rate in Section B. Federal Income Tax (See *Example 1* below.)

If the two rates differ, multiply (a) the amount in the lower rate bracket by the rate for that bracket, and (b) the amount in the higher rate bracket by the rate for that bracket. Add these two numbers; this is the expected tax for this payment. To get the rate to have withheld, divide this amount by the taxable amount of the payment. Round up to the next whole number and enter that rate in Section B. Federal Income Tax (See *Example 2* below.)

If you prefer a simpler approach (but one that may lead to overwithholding), find the rate that corresponds to your total income including the payment and enter that rate in Section B. Federal Income Tax.

Examples. Assume the following facts for Examples 1 and 2. Your filing status is single. You expect the taxable amount of your payment to be $20,000. Appropriate amounts have been withheld for all other sources of income and any deductions or credits.

Example 1. You expect your total income to be $65,000 without the payment. Step 1: Because your total income without the payment, $65,000, is greater than $63,475 but less than $118,350, the corresponding rate is 22%. Step 2: Because your total income with the payment, $85,000, is greater than $63,475 but less than $118,350, the corresponding rate is 22%. Because these two rates are the same, enter "22" in Section B. Federal Income Tax.

Example 2. You expect your total income to be $61,000 without the payment. Step 1: Because your total income without the payment, $61,000, is greater than $26,925 but less than $63,475, the corresponding rate is 12%. Step 2: Because your total income with the payment, $81,000, is greater than $63,475 but less than $118,350, the corresponding rate is 22%. The two rates differ. $2,475 of the $20,000 payment is in the lower bracket ($63,475 less your total income of $61,000 without the payment), and $17,525 is in the higher bracket ($20,000 less the $2,475 that is in the lower bracket). Multiply $2,475 by 12% to get $297. Multiply $17,525 by 22% to get $3,856. The sum of these two amounts is $4,153. This is the estimated tax on your payment. This amount corresponds to 21% of the $20,000 payment ($4,153 divided by $20,000). Enter "21" in Section B. Federal Income Tax.

Complete Steps 2–4 ONLY if they apply to you; otherwise, skip to Step 5. See pages 2 and 3 for more information on each step, when to use the estimator at *www.irs.gov/W4App*, and how to elect to have no federal income tax withheld (if permitted).

Step 2: Income From a Job and/or Multiple Pensions/ Annuities (Including a Spouse's Job/ Pension/ Annuity)

Complete this step if you (1) have income from a job or more than one pension/annuity, or (2) are married filing jointly and your spouse receives income from a job or a pension/annuity. **See page 2 for examples on how to complete Step 2.**

Do **only one** of the following.

(a) Use the estimator at *www.irs.gov/W4App* for the most accurate withholding for this step (and Steps 3–4). If you or your spouse have self-employment income, use this option; **or**

(b) Complete the items below.

(i) If you (and/or your spouse) have one or more jobs, then enter the total taxable annual pay from all jobs, plus any income entered on Form W-4, Step 4(a), for the jobs less the deductions entered on Form W-4, Step 4(b), for the jobs. Otherwise, enter "-0-" . . . . $

(iii) Add the amounts from items (i) and (ii) and enter the **total** here . . . . $

TIP: To be accurate, submit a new Form W-4P for all other pensions/annuities if you haven't updated your withholding since 2021 or this is a new pension/annuity that pays less than the other(s). Submit a new Form W-4 for your job(s) if you have not updated your withholding since 2019.

Complete Steps 3–4(b) on this form only if (b)(i) is blank **and** this pension/annuity pays the most annually. Otherwise, do not complete Steps 3–4(b) on this form.

Step 3: Claim Dependent and Other Credits

If your total income will be $200,000 or less ($400,000 or less if married filing jointly):

General Instructions

Future developments. For the latest information about any future developments related to Form W-4P, such as legislation enacted after it was published, go to *www.irs.gov/FormW4P*.

Purpose of form. Complete Form W-4P to have payers withhold the correct amount of federal income tax from your periodic pension, annuity (including commercial annuities), profit-sharing and stock bonus plan, or IRA payments. Federal income tax withholding applies to the taxable part of these payments. Periodic payments are made in installments at regular intervals (for example, annually, quarterly, or monthly) over a period of more than 1 year. Don't use Form W-4P for a nonperiodic payment (note that distributions from an IRA that are payable on demand are treated as nonperiodic payments) or an eligible rollover distribution (including a lump-sum pension payment). Instead, use Form W-4R, Withholding Certificate for Nonperiodic Payments and Eligible Rollover Distributions, for these payments/distributions. For more information on withholding, see Pub. 505, Tax Withholding and Estimated Tax.

Choosing not to have income tax withheld. You can choose not to have federal income tax withheld from your payments by writing "No Withholding" on Form W-4P in the space below Step 4(c). Then, complete Steps 1(a), 1(b), and 5. Generally, if you are a U.S. citizen or a resident alien, you are not permitted to elect not to have federal income tax withheld on payments to be delivered outside the United States and its territories.

Caution: If you have too little tax withheld, you will generally owe tax when you file your tax return and may owe a penalty unless you make timely payments of estimated tax. If too much tax is withheld, you will generally be due a refund when you file your tax return. If your tax situation changes, or you chose not to have federal income tax withheld and you now want withholding, you should submit a new Form W-4P.

When to use the estimator. Consider using the estimator at *www.irs.gov/W4App* if you:

1. Are submitting this form after the beginning of the year;

2. Have social security, dividend, capital gain, or business income, or are subject to the Additional Medicare Tax or Net Investment Income Tax;

3. Receive these payments or pension and annuity payments for only part of the year; or

4. Have changes during the year in your marital status, number of pensions/jobs for you (and/or your spouse if married filing jointly), number of dependents, or changes in your deductions or credits.

TIP: Have your most recent payment statements/pay stubs from this year available when using the estimator to account for federal income tax that has already been withheld this year. At the beginning of next year, use the estimator again to recheck your withholding.

Self-employment. Generally, you will owe both income and self-employment taxes on any self-employment income you (or you and your spouse) receive. If you do not have a job and want to pay these taxes through withholding from your payments, use the estimator at *www.irs.gov/W4App* to figure the amount to have withheld.

Payments to nonresident aliens and foreign estates. Do not use Form W-4P. See Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities, and Pub. 519, U.S. Tax Guide for Aliens, for more information.

Tax relief for victims of terrorist attacks. If your disability payments for injuries incurred as a direct result of a terrorist attack are not taxable, write "No Withholding" in the space below Step 4(c). See Pub. 3920, Tax Relief for Victims of Terrorist Attacks, for more details.

Specific Instructions

Submit a **separate Form W-4P** for each pension, annuity, or other periodic payments you receive.

Step 1(c). Check your anticipated filing status. This will determine the standard deduction and tax rates used to compute your withholding.

Step 2. Use this step if you have at least one of the following: income from a job, income from more than one pension/annuity, and/or a spouse (if married filing jointly) that receives income from a job/pension/annuity. The following examples will assist you in completing Step 2(b).

Example 1. Taylor, a single filer, is completing Form W-4P for a pension that pays $50,000 a year. Taylor also has a job that pays $25,000 a year. Taylor has no other pensions or annuities. Taylor will enter $25,000 in Step 2(b)(i) and in Step 2(b)(iii).

If Taylor also has $1,000 of interest income, which they entered on Form W-4, Step 4(a), then they will instead enter $26,000 in Step 2(b)(i) and in Step 2(b)(iii). They will make no entries in Step 4(a) on this Form W-4P.

Example 2. Casey, a single filer, is completing Form W-4P for a pension that pays $50,000 a year. Casey does not have a job, but receives another pension for $25,000 a year (which pays less annually than the $50,000 pension). Casey will enter $25,000 in Step 2(b)(ii) and in Step 2(b)(iii).

If Casey also has $1,000 of interest income, then they will enter $1,000 in Step 4(a) of this Form W-4P.

Example 3. Sam, a single filer, is completing Form W-4P for a pension that pays $50,000 a year. Sam does not have a job, but receives another pension for $75,000 a year (which pays more annually than the $50,000 pension). Sam will not enter any amounts in Step 2.

If Sam also has $1,000 of interest income, they won't enter that amount on this Form W-4P because they entered the $1,000 on the Form W-4P for the higher paying $75,000 pension.

Example 4. Alex, a single filer, is completing Form W-4P for a pension that pays $50,000 a year. Alex also has a job that pays $25,000 a year and another pension that pays $20,000 a year. Alex will enter $25,000 in Step 2(b)(i), $20,000 in Step 2(b)(ii), and $45,000 in Step 2(b)(iii).

If Alex also has $1,000 of interest income, which they entered on Form W-4, Step 4(a), they will instead enter $26,000 in Step 2(b)(i), leave Step 2(b)(ii) unchanged, and enter $46,000 in Step 2(b)(iii). They will make no entries in Step 4(a) of this Form W-4P.

If you are married filing jointly, the entries described above do not change if your spouse is the one who has the job or the other pension/annuity instead of you.

CAUTION ***Multiple sources of pensions/annuities or jobs.*** *If you (or if married filing jointly, you and/or your spouse) have a job(s), do NOT complete Steps 3 through 4(b) on Form W-4P. Instead, complete Steps 3 through 4(b) on the Form W-4 for the job. If you (or if married filing jointly, you and your spouse) do not have a job, complete Steps 3 through 4(b) on Form W-4P for **only** the pension/annuity that pays the most annually. Leave those steps blank for the other pensions/annuities.*

Step 3. This step provides instructions for determining the amount of the child tax credit and the credit for other dependents that you may be able to claim when you file your tax return. To qualify for the child tax credit, the child must be under age 17 as of December 31, must be your dependent who generally lives with you for more than half the year, and must have the required social security number. You may be able to claim a credit for other dependents for whom a child tax credit can't be claimed, such as an older child or a qualifying relative. For additional eligibility requirements for these credits, see Pub. 501, Dependents, Standard Deduction, and Filing Information. You can also include **other tax credits** for which you are eligible

Specific Instructions *(continued)*

in this step, such as the foreign tax credit and the education tax credits. Including these credits will increase your payments and reduce the amount of any refund you may receive when you file your tax return.

Step 4 (optional).

Step 4(a). Enter in this step the total of your other estimated income for the year, if any. You shouldn't include amounts from any job(s) or pension/annuity payments. If you complete Step 4(a), you likely won't have to make estimated tax payments for that income. If you prefer to pay estimated tax rather than having tax on other income withheld from your pension, see Form 1040-ES, Estimated Tax for Individuals.

Step 4(b). Enter in this step the amount from the Deductions Worksheet, line 6, if you expect to claim deductions other than the basic standard deduction on your 2025 tax return and want to reduce your withholding to account for these deductions. This includes itemized deductions, the additional standard deduction for those 65 and over, and other deductions such as for student loan interest and IRAs.

Step 4(c). Enter in this step any additional tax you want withheld from **each payment**. Entering an amount here will reduce your payments and will either increase your refund or reduce any amount of tax that you owe.

Note: If you don't give Form W-4P to your payer, you don't provide an SSN, or the IRS notifies the payer that you gave an incorrect SSN, then the payer will withhold tax from your payments as if your filing status is single with no adjustments in Steps 2 through 4. For payments that began before 2025, your current withholding election (or your default rate) remains in effect unless you submit a new Form W-4P.

Step 4(b)—Deductions Worksheet *(Keep for your records.)*

1	Enter an estimate of your 2025 itemized deductions (from Schedule A (Form 1040)). Such deductions may include qualifying home mortgage interest, charitable contributions, state and local taxes (up to $10,000), and medical expenses in excess of 7.5% of your income	1	$
2	Enter: • $30,000 if you're married filing jointly or a qualifying surviving spouse • $22,500 if you're head of household • $15,000 if you're single or married filing separately	2	$
3	If line 1 is greater than line 2, subtract line 2 from line 1 and enter the result here. If line 2 is greater than line 1, enter "-0-"	3	$
4	If line 3 equals zero, and you (or your spouse) are 65 or older, enter: • $2,000 if you're single or head of household. • $1,600 if you're married filing separately. • $1,600 if you're a qualifying surviving spouse or you're married filing jointly and one of you is under age 65. • $3,200 if you're married filing jointly and both of you are age 65 or older. Otherwise, enter "-0-". See Pub. 505 for more information	4	$
5	Enter an estimate of your student loan interest, deductible IRA contributions, and certain other adjustments (from Part II of Schedule 1 (Form 1040)). See Pub. 505 for more information	5	$
6	**Add** lines 3 through 5. Enter the result here and in **Step 4(b)** on Form W-4P	6	$

Dear DANIEL JABLONSKI:

As we notified you previously, the above referenced annuity contract is scheduled to mature on July 16, 2026. At maturity, payments begin, and any enhanced death benefit provided by your contract will be lost.

Under the terms of your contract, once the Maturity Date is reached, annuity payments will begin under the default method in your contract.

However, the Maturity Date may be extended such that payments begin at a later date. In addition, the default payment method may also be modified. Any extension of Maturity Date or change in payment method must be requested prior to the Maturity Date.

If you do not extend the Maturity Date of your contract or change the default method of payment, we will make distributions to you beginning one month after the Maturity Date. In addition, we will be required to withhold federal taxes, and in some cases, state taxes, from this payment, unless you advise us otherwise.

We encourage you to meet with your producer to select the option that best meets your financial needs. If we do not receive written response from you, we will mature your contract under the default method and begin sending you distributions.

Option 2: Annuitize your contract under a payment method other than the default in your contract. Any enhanced death benefit provided by your contract will be lost.
